

Collection Kit Return Instructions for Locals

FYR Diagnostics is open Monday through Friday from 8:30am to 5:30pm for drop-offs
We are working reduced hours on Saturdays and can accommodate pick-ups and drop-offs by appointment only, please notify us at least 24 hours before.

To drop off samples, text [406-303-3560](tel:406-303-3560) with the number of samples and that you are on your way.

Place all collected samples
in a provided biohazard bag

Drive to FYR Diagnostics:
Montana Technology Enterprise Center
1121 E Broadway St.
Missoula, MT 59802

Park in the FYR Diagnostics parking space near the doors at the front of the building (look for a sign).

Text [406-303-3560](tel:406-303-3560) to notify us that you are here. Remain in your car.

A lab tech will be out shortly to receive the samples. Before handing over samples, make sure there are no leaks or breakages of the tubes or bag. This warrants rejection from the lab.

Roll down your window and place the biohazard bag of samples in the biohazard containment box. Please try to fold the bag up in the container so that the lab technician can close it without having to touch the biohazard bag of samples.

If you are in need of more supplies or Collection Kits make sure to notify us by texting [406-303-3560](tel:406-303-3560) ahead of time. This way we can have kits prepped by the time you drop off samples.
